Thick Pads for Constant Action

If your BendPak [two-post lift](#) is seeing an especially large amount of action, then you need this thick rubber pad to provide you with additional stability. Treaded surface holds the chassis and keeps it there without scratching the hardware. Designed to slip over two-post lift arms.

Features

- Works with any BendPak two-post lift
- Thick rubber construction
- Textured surface for extra grab
- Will not scratch the vehicle
- Easy slip-over design
